

NOTE

At the time of the opening of the new building last November an exhibition of "Early and Later Medical Americana" was arranged by the Exhibits Committee. A catalogue of this, containing twenty illustrative plates and many biographical and bibliographical notes, has now been printed. Those who are interested may obtain a copy in the Library.

CORRECTION

In the note in the Richard Bright Exhibit which appeared in the August number of the BULLETIN a mistake was made in a date, which should be 1814 instead of 1914, next to the last line, page 545.
